Kisi for shared spaces

Modern security for shared spaces

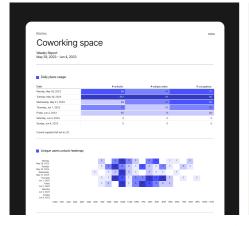

> Keep your space secure and operational 24/7 with Kisi access control.

45 Main Street, 11201 Brooklyn

sales@getkisi.com getkisi.com

Why choose Kisi for your shared space?

Increase revenue

- Monetize access to meeting rooms and other spaces through tiered memberships or an ondemand booking system.
- Offer 24/7 access and automate services based on tiered memberships.
- Get capacity insights to optimize space utilization.
- Automatically revoke access to non-paying users.

Improve access experiences

- Attract members with a modern access control system with mobile access.
- Unlock doors with a single tap in the app, waving a hand in front of a Kisi reader or tapping your mobile device to the reader.
- Allow new members to book meeting room spaces and amenities, and automatically get access through Kisi.
- Incorporate Kisi with SDK or integrate with your existing software so your members don't have to download the Kisi app to unlock.

Streamline access management

- Seamlessly manage hot desks, conference spaces, private offices, and other areas.
- · Use scheduled unlocks for conferences.
- Unlock doors for unexpected vendors, including cleaners, remotely via mobile.
- Easily showcase the facility to possible members and rapidly grant access to visitors.

Kisi access control

Kisi Controller Pro 2

Required

Control door access with the Kisi Controller. Connect up to 4 access points fitted with any commercial electronic lock per location.

Explore Controller

\$850

Kisi Reader Pro 2

Improve member experience and ensure frictionless entry. Choose between vast keyless entry options, including key cards, fobs, or the most popular touchless access.

Explore Reader \$475

Kisi Terminal Pro

Ensure seamless access experience for both members and visitors. Expand on the Reader Pro's functionalities by enabling easy visitor access or day-pass members with QR codes.

Explore Terminal

\$850

Kisi NFC Credentials

Introduce secure access with Kisi's NFC credentials, enable existing RFID credentials like HID, or use mobile access links shareable via SMS.

Explore Credentials

\$300/set of 50

Smart locks

Integrate your set commercial smart locks with Kisi in minutes for enhanced security, convenience, and expanded functionalities in your coworking space.

Explore Smart locks

Installation service for large deployments

Consult with your local locksmith, GC or low voltage electrician for installation quotes. Kisi works with any wired electric strike or magnetic lock. Kisi can also connect you with a third-party installer in your area, if needed.

Kisi for advanced flex spaces

Apple Wallet for branded experiences

Combine the ease of use and security of Apple Wallet with Kisi's enhanced access control. Design the Apple Wallet badge with your branding to create a cohesive brand experience for your members.

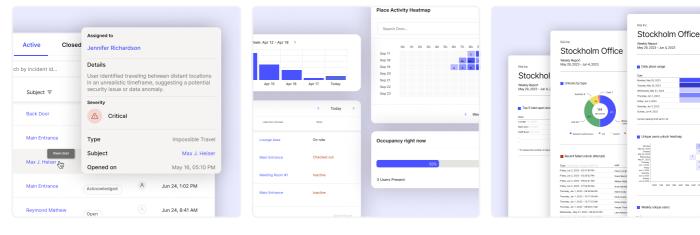

Explore Apple Wallet

Interoperability

Seamlessly integrate your existing hardware and software. Use our open API and mobile SDKs to introduce advanced access control features into your coworking app.

Explore One Security Platform

Alerts and incidents

Reduce non-paying members with timely and actionable alerts of critical access control events, like door held open. Manage security incidents effectively with integrated video snapshots.

Attendance and occupancy

Explore

Monitor real-time occupancy rates with checkout readers to increase ROI based on attendance data. Compare occupancy data with access control records to identify non-paying members.

Audit and reporting

Explore

Unlock valuable insights with Kisi's custom dashboards and tailored reporting. Improve operational performance by identifying behavior patterns in your shared space.

Customer stories

gather.

gather

Read case study

Gather is a vibrant coworking community with seven locations across Virginia, USA, serving 2,800 members with flexible membership options.

The Collab

Using Archie integration

Read case study

The Collab is a women-focused 1,500 sq ft coworking space and event venue located in Hendersonville, Tennessee, USA.

Before Kisi

- Access systems that didn't always successfully open doors to paying members.
- Unable to track who and when
 members enter their spaces.
- Employees use up time before the computer doing data work instead of focusing on creative ideas that directly promote growth.

After Kisi

- Better and user-friendly security with 55 doors secured and automated admin work of 3 different membership models.
- Enhanced 24/7 security and operational coworking spaces.
- Easier to give temporary access and additional management capabilities.

Before Kisi

- A need to connect with other women in the area and promote a culture of collaboration and career growth.
- Security and smooth user experience as a priority.
- Focus on community.

After Kisi

- Smooth access management of different groups based on different coworking membership tiers.
- Fantastic coworking integration with Archie, enabling space management and coworking management from a single app.
- A scalable access control system that can grow with the flex space.
