

Manage multi-tenant spaces with ease with Kisi

Efficiently manage your property portfolio from anywhere. Our cloud-based access control solution allows you to remotely manage access and security for multi-tenant spaces from one dashboard.

Why Kisi?

Kisi is a secure, user-friendly access control system that integrates seamlessly with your current infrastructure.

Benefits

Highly scalable

- Save time and money by layering Kisi over your existing access control system and migrating to the cloud.
- Remotely manage different locations and users from a single pane of glass.
- Unlock doors for unexpected vendors, including cleaners, remotely via mobile.

Improve access experiences

- Impress tenants with a modern access control system with 24/7 mobile access that integrates with your existing tenant management software.
- Unlock doors with a single tap in the app, waving a hand in front of a Kisi reader or tapping your mobile device to the reader.
- Extend access control over elevators for improved floor security.

Enhance security

- Enable in-and-out tracking and intrusion detection to monitor your buildings.
- Incorporate 2FA (two-factor authentication) to better protect against thefts and breaches. Integrate Kisi with your contact sensors, alarms, and cameras.
- Apply security standards to all your real estate buildings. Manage multiple buildings, floors, and elevators.

Useful integrations

Customize Kisi to meet your unique needs with our library of integrations. Kisi integrates with thousands of leading software providers, including OfficeRnD, Yardi, Nexedus, and Optix.

Minimize security threats and keep up-to-date with frequent user changes by connecting Kisi with SCIM. Streamline processes and improve security by integrating Kisi with enterprise software solutions like Microsoft Azure or Google Suite. Integrate security cameras, data analytics tools, visitor systems, and real estate software to enjoy more control with less manual overhead.
