Benefits

Maximize security

- Make sure compliance, security, legal and IT teams are on the same page with a customizable access control system that integrates with alarm systems, security cameras, and more.
- Automatically revoke access rights through integrations like Azure SSO.
- Protect your access system against cyber threats with our regular over-the-air updates.

Ensure compliance

- Meet the strictest security standards in your spaces.
- Track where people are, have been, and how your system's being used at all times.
- Provide historical event logs for compliance teams to conduct audits and reactive investigations.

Remote management

- Manage your spaces from anywhere via our cloud-based dashboard which can be easily accessed via our app or online.
- Control data trails with explicit retention policies.
- Remotely grant access to visitors through easy mobile access passes.

Useful integrations

Customize Kisi to meet your unique needs with our library of integrations. Kisi integrates with thousands of leading software providers, including Okta, Microsoft, Cisco Meraki, Envoy, Splunk, and Slack. Integrate security cameras, data analytics tools, visitor systems, and other software to enjoy more control with less manual overhead.

Minimize security threats and keep up-to-date with staff changes by connecting Kisi with SCIM. Streamline processes and improve security by integrating Kisi with enterprise software solutions like Microsoft Azure or Google Suite. Use Kisi with your SSO provider of choice to enable simplified user management and compliance audits.
