

# Reduce security risk and maintain SOC II and HIPPA compliance with Kisi

Kisi meets the unique security challenges of the healthcare space. Through our cloud-based access control, you can enhance safety, reduce risk, and ensure compliance with ease.

## Why Kisi?

Kisi is a secure, user-friendly access control system that integrates seamlessly with your current infrastructure to enable user-groups seamless movement through secure areas of your facility.

Kisi inc.

45 Main street,

## Benefits

### Enhance on-premise security

- Safeguard access to security sensitive areas.
- Get real-time alerts about security threats.
- Keep data and connected devices secure with our regular over-the-air security updates.

### Reduce non-paying members

- Quickly onboard and offboard staff and contractors.
- Organize different shifts, and coordinate various access groups.
- Hygienic contactless access for visitors and staff.

### Ensure compliance

- Kisi is SOC II and HIPPA compliant. We have vast experience enforcing strict security protocols and supporting compliance assessments.
- Conduct audits on multiple sites from one centralized dashboard.
- Utilize our extensive data logs for investigations and compliance purposes.

## Useful integrations

Customize Kisi to meet your unique needs with our library of integrations. Kisi integrates with thousands of leading software providers, including Microsoft, Google, Envoy, Okta, Splunk, Cisco Meraki, and Milestone. Many healthcare facilities integrate Kisi with Microsoft Azure for identity and permission management, allowing them to meet HIPAA compliance standards.

Minimize security threats and keep up-to-date with frequent staff changes by connecting Kisi with SCIM. Use Kisi with your preferred SSO provider to simplify user management and compliance audits. Integrate security cameras, data analytics tools, visitor systems, and healthcare software to enjoy more control with less manual overhead.
