

Optix and Kisi Integration

Enabling seamless access to your coworking space. Sync your users from Optix and their access permissions to Kisi with a click of a button.

Customized access

Enable customized access for your users based on their Optix plans and assignments.

Easy check-ins

Ready to check-in? Optix will let Kisi know that your user is welcome in the building.

Streamlined workflow

Set your access permissions in Optix and let the Optix and Kisi integration do the rest.

Bookings secured

Secure your space and ensure that users have the space booked in advance.

Flexible access permissions

Provide access for a user that is on a plan, has a booking, or is checking in.

Real-time

Making updates to your user's plan or booking details? Optix will let Kisi know, in real-time.
