

Connecting members to your space

Empower your admins by connecting andcards and Kisi. This will enable them to grant and revoke access, monetize your meeting rooms, and work from a centralized dashboard.

Deploy independence

Secure your space

Only allow staff to enter determined areas of your space (e.g., storage room or staff office).

Issue daily passes

Let your members invite visitors and network. You will be able to deploy the visitor pass in seconds.

Members decide

Your members can autonomously decide which meeting room to book and at what time. They will receive access for that timespan and get billed automatically.

An admin's dream

Always in sync

Kisi is always in sync with your directory. Every change in plan, cancellation, or new contract will automatically update in our dashboard, without even needing to open it.

One dashboard for all locations

Manage access control for your locations from a centralized dashboard.

Easy check-in

Use our solution as a check-in point for your customers. You will discover new insights about occupancy and space utilization.
