Seamless, secure unlock experiences—at the tap of an iPhone or Apple Watch.

As a certified Apple partner, Kisi delivers a solution that combines the ease-of-use and security of Apple Wallet with Kisi's enhanced access control.

Employee badges in Apple Wallet provide reliable and fast access with NFC technology. Simple provisioning reduces admin overhead.

Give your team the hassle-free access they expect with no more keys, key fobs, or keycards, and an integrated Apple experience.

Simplify everything.

- Streamline user onboarding with minimal permissions hassle.
- Allow users to add Apple Pass directly to Apple Wallet in a familiar way.
- Enable tap-to-unlock, even without a network connection.

Access superior security.

- Use the speed, reliability, and security of NFC.
- Trust the built-in privacy and security features of Kisi, iPhone, and Apple Wallet.
- Enable users to suspend the Apple Passes on their lost iPhone remotely via the Find My app.

Future-proof your business.

- Integrate into your existing access control systems.
- Design employee badges that are always on brand.
- Create a shared standard with easily controlled access credentials across properties.
