

Kisi Intercom Pro ^{KD-IN1}

Full-duplex

Full HD

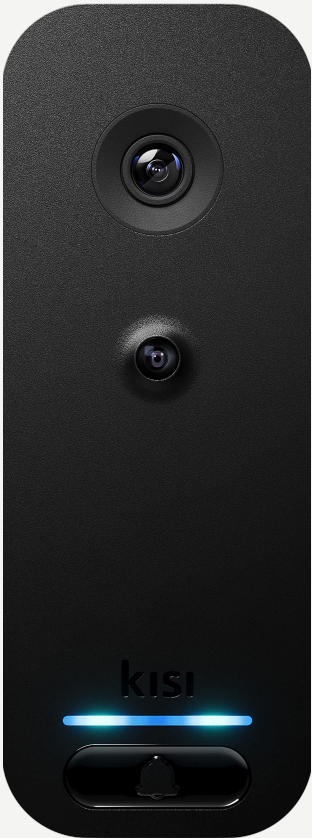

App unlocks

Complete visibility and control from the Kisi App.

See who's at the door, answer calls, and manage access from the Kisi App on your phone — with an intercom embedded in the Kisi ecosystem.

The Intercom Pro offers enhanced security, flexibility, and scalability for your organization. Combine doorbell and video security capabilities, along with simplified methods for receiving calls via the Kisi mobile app and intuitive, cloud-based management tools.

Improve workplace flexibility by empowering Kisi admins to receive and take calls wherever they are from an intuitive interface that fits perfectly in Kisi's easy-to-use yet powerful tools.

Width	Height	Depth
2.6" (66 mm)	6.9" (176.6 mm)	1.57" (40.9 mm)

Anyone. Anything. Anytime.
From unannounced visitors and expected parcels to larger contractor groups and new employees, with the Kisi Intercom Pro, you'll see every detail in Full HD in a 130° view. Receive and respond to calls on the fly right from the Kisi App.

Extended visibility. Expanded possibilities.
See what's happening at your front door in every condition with the Kisi Intercom Pro. Interact and grant access to visitors even when you're not in the office and get a detailed audit trail of the call for peace of mind.

High-definition. Peak transparency.
Secure the front door with a super clear view of who stops by — even after the sun goes down with HD Video and Night Vision. Strengthen security measures to enhance accountability and transparency with a detailed audit trail and a clear record of each call.
